Summary

Experienced front-end developer with 5+ years specializing in React applications with TypeScript for efficient and maintainable code. Skilled in utilizing various styling techniques and UI libraries to create visually appealing and responsive interfaces. Proficient in Git version control and JIRA task management for efficient collaboration. Additionally, Proficient in developing Node.js applications, including building RESTful APIs with Express.js.

Relevant Experience

Senior Front-end Software Engineer @ Blue.Ai

February 2023 - March 2024

- ✓ Managed Jira tasks for our team, tracked deadlines and supervised task lifecycles
- ✓ Conducted thorough code reviews to maintain code quality and consistency
- ✓ Coordinated with the PM in sprint planning meetings to ensure timely delivery of tasks
- ✓ Collaborated cross-functionally with UI/UX & PM, ensuring project alignment & harmony

Key Projects:

- Developed Blue.Ai's Landing page in collaboration with the UI/UX and Marketing teams, utilizing Next.js, while styling with Mantine UI first, then Tailwind and HeadlessUI later
- Developed a custom UI Library and shared utility package for reuse across projects
- Contributed to developing an in-house campaign management system, consisting of features such as contacts, content, templates, and sender ID management. We utilized React.js and TypeScript, with various packages such as React Router, Redux, RTK-Query, etc, as well as our custom-built UI and utility packages

Front-end Software Developer @ Antwerp Technologies

March 2022 - February 2023

- ✓ Designed & developed internal tools such as phone number prefixing and email signature generator, significantly optimizing operations & ensuring consistent branding
- ✓ Led client-side development of an Omni-channel software solution, used to integrate communication channels for enhanced customer interaction
- ✓ Collaborated with UI/UX & PM to ensure consistent UIs and meet project requirements
- ✓ Utilized Agile methodologies in Jira Software for task alignment and tracking
- ✓ Effectively utilized GIT for version control, fostering seamless collaboration and efficient code management across the development team

Full-stack web developer & designer @ Freelancer

February 2019 - March 2022

- ✓ Demonstrated expertise in orchestrating full-cycle project lifecycles as a freelance developer, delivering end-to-end solutions for clients across various industries
- ✓ Proficient in utilizing React with Typescript for client-side development, along with various packages and libraries to streamline the development process
- ✓ Build robust & scalable server-side apps with Node.js, Express.js & MongoDB Atlas
- ✓ Capable of managing projects from conception to deployment, ensuring seamless integration of both client-side and server-side components
- ✓ Experienced in handling domain configuration, hosting, and deployment processes to provide clients with comprehensive solutions tailored to their needs

Skills

Programming Languages

Typescript, Javascript

Frameworks & Libraries

React.js, Next.js, TailwindCSS, Redux, RTK-Query, Axios, Zod, React Router, Context API, React Hook Form

Web Technologies

HTML5, CSS3, SASS preprocessor, JSON, Node.js, Express.js, RESTful APIs, JWT, Google auth, Websockets

Tools & Platforms

Markdown, GIT, Vite, Webpack, Postman, Developer Tools, Redux dev tools, Cypress

Database & Storage

MongoDB (mongoose), Firebase, Browser storage (local/session storage, cookies)

Education

Lebanese International University

2016 - 2020 // Beirut, Lebanon

Bachelor of Business Administration in Marketing, minor in computer science

Technical Certifications

Responsive web design

2021 // freecodecamp

Programming Foundations with JavaScript, HTML and CSS

2020 // Duke University

HTML, CSS, and Javascript for Web Developers

2020 // Johns Hopkins University

Advanced Styling with Responsive Design

2020 // University of Michigan
